

General Sessions

Time	Title	Presenter	Place
Monday			
12:00 pm - 1:00 pm	Check-in and Registration	Kim Simpson, Okanogan CD and WADE President	Salmon Gallery
This is when you check in and register			
1:00 pm - 1:30 pm	Opening Session	Kim Simpson, Okanogan CD and WADE President	Chapel Theater
Introduction by WADE President and Awards.			
1:30 pm - 3:00 pm	Social Marketing: Why Is It So Hard and What Are 15 Principles to Make It Easier?	Nancy Lee, President, Social Marketing Services, Inc.	Chapel Theater
Social marketing is the art and discipline of influencing voluntary public behaviors - ones that improve health, safety and the environment. This plenary session will briefly describe the social marketing discipline and then Nancy will present principles for success, illustrating each with success stories.			
3:30 pm - 5:00 pm	New Employee Orientation	Craig Nelson, Okanogan CD	Salmon Gallery
Introduction for new employees. This will be an orientation to the workings of Districts and roles of employees in achieving local conservation success			
6:00 pm - 7:00 pm	Dinner		
7:00 pm - 8:00 pm	Envirothon Meeting	Cindy Pierce, Skagit CD	Flicker
Tuesday			
7:00 am - 8:00 am	Breakfast		
12:00 pm - 1:00 pm	Lunch		
6:00 pm - 7:00 pm	Dinner		
7:30 pm - 9:00 pm	Pinewood Derby Race	Craig Nelson, Okanogan CD	Kingfisher Dining Hall
Wednesday			
7:00 am - 8:00 am	Breakfast		
10:30 am - 12:00 pm	Closing Session	Kim Simpson, Okanogan CD and WADE President	Chapel Theater
Closing Remarks, Call for Coordinators next year, Auction, and WADE O&D elections.			
12:00 pm - 1:00 pm	Lunch		

Administrative

Kathy Whalen, Craig Nelson

Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	Agency Updates WACD, WSCC, & NRCS	John Larson, WACD, Tom Salzer, WSCC, Roylene Rides at the Door, NRCS	Tadpole
Wrap-up of the 2009 legislative session and 2009 district elections & next steps. NRCS will provide an update on Farm Bill and the priorities of our new State Conservationist.			
Tuesday			
8:00 am - 9:30 am	Conserving Public Trust	Pat Mason, MRSC Senior Legal Consultant	Woodpecker
Open Meetings and Public Disclosure Requirements			
9:30 am - 11:00 am	Down and Dirty Purchasing	Pat Mason, John Carpita, MRSC Public Works Consultant John Carpita, MRSC Public Works Consultant	Woodpecker
The stuff you MUST know about purchasing, bidding and Contract Management			
11:00 am - 12:00 pm	Not So Down and Dirty Purchasing	Pat Mason, John Carpita	Woodpecker
The stuff that you WISH conservation districts knew about purchasing, bidding and contract management			
1:30 pm - 2:30 pm	Retaining Star Employees	Kathy Whalen, Thurston CD, Rich Baden, Spokane CD, George Boggs, Whatcom CD	Tadpole
This panel discussion will focus on how to entice star employees to stay with your organization, continue to grow, and remain happy.			
2:30 pm - 4:00 pm	Assessment - Stories of Success & What Can Be Learned	Anna Lael, Kittitas CD, Denise Smee, Clark CD, Bobbi Lindemulder, Snohomish/King CDs	Tadpole
Panelists will talk about their experiences is securing assessments. A Q&A period will follow.			
4:00 pm - 5:00 pm	Update from the State Auditor	Joshua Colette, State Auditor's Office	Woodpecker
News Flash! Audits aren't just about financial records, therefore managers and board members are encouraged to attend the Auditor Rountable session, being held jointly with the Financial Track.			
Wednesday			
8:00 am - 10:00 am	Workload Analysis & Time Budgeting	Ray Ledgerwood, WSCC	Tadpole
Discover techniques for assigning workload and making decisions about the need to hire another staff member, or conversely, the need to lay off an employee.			

Air Quality

Pius Ndegwa, PhD

Time	Title	Presenter	Place
Monday			
3:30 pm - 3:40 pm	Pre-workshop Evaluation	Multiple	Canyon Wren
3:40 pm - 4:40 pm	Odor Measurement Techniques Introduce participants to livestock odor, and the methods used to measure and quantify odor in livestock operations.	Mario E. de Haro - Martí	Canyon Wren
4:40 pm - 5:30 pm	Odor Mitigation Strategies (BMPs) Introduce participants to the available best management practices for mitigation of odor emissions in livestock operations.	Mario E. de Haro - Martí	Canyon Wren
Tuesday			
8:00 am - 8:50 am	Ammonia Measurement Techniques Introduce participants to ammonia emissions, and to the methods, techniques, and instrumentation used to measure and quantify ammonia in livestock operations.	Jiqin Ni	Canyon Wren
8:50 am - 9:30 am	Ammonia Mitigation Strategies (BMPs) Introduce participants to the available best management practices for mitigation of ammonia emissions in livestock operations.	Pius Ndegwa	Canyon Wren
9:30 am - 10:10 am	Volatile Organic Compounds (VOCs) Measurements Introduce participants to the nature of volatile organic compounds (VOCs) and the methods, techniques, and instrumentation used to measure and quantify them in livestock operations.	Frank Mitloehner	Canyon Wren
10:20 am - 10:45 am	VOCs Mitigation Strategies (BMPs) Introduce participants to the available best management practices for mitigation of VOCs emissions in livestock operations.	Frank Mitloehner	Canyon Wren
10:45 am - 12:00 pm	Federal and Regional Air Quality Legislations followed by Panel Discussion Introduce participants to the federal and regional air quality legislations and issues relevant to the Western US.	Multiple	Canyon Wren
12:00 pm - 1:00 pm	L U N C H/ "Hands-on Round Robin" – Odor and other gases measuring Equipment/Instruments Provide participants with hand-on experience with some of the air quality instrumentation discussed in the other sessions. Located in entry at Kingfisher Dining Hall.	Multiple	Kingfisher Dining Hall
1:00 pm - 1:50 pm	Hydrogen Sulfide Measurements and BMPs Introduce participants to hydrogen sulfide emissions in livestock operations as well as the methods, techniques, and instrumentation used to quantify and measure it. In addition, this session will discuss the available best management practices to mitigate its emissions.	Jiqin Ni	Canyon Wren
1:50 pm - 2:30 pm	Particulate Measurement Techniques Introduce participants to particulate matter classification, and the methods, techniques, and instrumentation used to measure and quantify particulate matter in livestock operations.	Brent Auvermann	Canyon Wren
2:30 pm - 3:00 pm	Particulate Mitigation Strategies (BMPs) Introduce participants to the available best management practices for mitigation of particulate matter emissions in livestock operations.	Brent Auvermann	Canyon Wren
3:10 pm - 4:10 pm	Dietary changes for air quality: Overview Introduces to the participants the roles that diet-formulation can play in mitigation of negative impacts on air quality from livestock operations.	Joe Harrison	Canyon Wren
4:10 pm - 4:50 pm	Greenhouse Gases and Carbon Credits Introduces to the participants the nature of greenhouse gases that can potentially be emitted from livestock operations and how mitigation or capture of these gases can produce carbon credits that could be sold to supplement livestock operation's economic returns.	Jude Capper	Canyon Wren
4:50 pm - 5:00 pm	Post-workshop Evaluation	Multiple	Canyon Wren

Conservation Planner

James Weatherford

Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	State-Wide Planning Format	Paul Scales, NRCS, John Larson, WACD, Mark Clark, WACC, James Weatherford, Thurston CD	Chapel Theater
Presentation of and Q/A opportunity about the reasons behind a statewide planning effort. A solid review of the 9 steps of planning. All beginning and seasoned planners are encouraged to attend.			
Tuesday			
8:00 am - 9:30 am	Soils	Chuck Natsuhara, NRCS	tdoors - Entry Turnarou
Soils and their importance and relation to planning for all situations			
9:30 am - 11:00 am	Small Acreage	Bobbi Lindemulder, Snohomish CD, Rene Skaggs, Pierce CD and James Weatherford, Thurston CD	tdoors - Entry Turnarou
Small acreage planning involving many aspects and varieties of small farms, including "tools of the trade"			
11:00 am - 12:00 pm	Riparian	Meghan Adamire, Clallam CD	tdoors - Entry Turnarou
Off stream watering, habitat improvements, ESA and how they relate to planning			
1:30 pm - 2:30 pm	Forestry	Gary Kuhn, NRCS	tdoors - Entry Turnarou
Planning as it relates to forestry, tools of the trade, considerations involved			
2:30 pm - 4:00 pm	Pasture Management	Marty Chaney, NRCS	tdoors - Entry Turnarou
Geared towards seasoned and new planners, grazing, timing, use, testing, it's all here!			
4:00 pm - 5:00 pm	Crops, Irrigation, and Compost	Mark Crowley, Kittitas CD, Lyle Stoltman, Grant CD	tdoors - Entry Turnarou
Great info on crops, irrigation, compost and their relation to planning. Located in the herb garden!			
Wednesday			
8:00 am - 9:00 am	Writing Practice Specifications	James Weatherford, Thurston CD	Chapel Theater
Writing practice specifications properly, for all to understand			
9:00 am - 10:00 am	Panel Discussion	Moderator, TBD	Chapel Theater
The plan's complete, now what? How to talk to the landowner, getting the plan implemented, building confidence and credibility, and what landowners want from planners			

Finance		Rosie Taylor, Sue Bridgman, Elaine Simpson	
Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	What Can We Learn From Each Other	Rosie Taylor, Elaine Simpson & Susan Bridgman	Woodpecker
Round Table			
Tuesday			
8:00 am - 9:30 am	Conserving Public Trust	Pat Mason, MRSC Senior Legal Consultant	Woodpecker
Open Meetings and Public Disclosure Requirements			
9:30 am - 11:00 am	Down and Dirty Purchasing	Pat Mason, John Carpita, MRSC Public Works Consultant John Carpita, MRSC Public Works Consultant	Woodpecker
The stuff you MUST know about purchasing, bidding and Contract Management			
11:00 am - 12:00 pm	Not So Down and Dirty Purchasing	Pat Mason, John Carpita	Woodpecker
The stuff that you WISH conservation districts knew about purchasing, bidding and contract management			
1:30 pm - 2:30 pm	Records and Archives	Scott Sackett, Central WA Archivist	Woodpecker
What to Keep - What to Toss, and How to Document It			
2:30 pm - 3:15 pm	How to get Reimbursed by RCO	Rachael Langen, Recreation and Conservation Office	Woodpecker
Discussion of reimbursement issues and some outreach.			
3:15 pm - 4:00 pm	What's New at the Commission	Commission Staff	Woodpecker
4:00 pm - 5:00 pm	Update from the State Auditor	Joshua Collette, Assistant State Auditor	Woodpecker
Audit Do's and Don'ts, and Meet Josh, Conservation District Specialist from the State Auditor's Office			
Wednesday			
8:00 am - 9:00 am	Washington State Health Care Authority	Lawrence Cade, Benefits Marketing Rep	Woodpecker
PEBB Benefits			
9:00 am - 10:00 am	Enduris (formerly WGEP)	Scott Hansen, Director of Business Development and Sheryl Brandt, Director of Claims and Risk Management, State Auditor	Woodpecker
Errors and Omissions, Risk Management and Liability Issues			

Forestry

Al Craney

Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	State-Wide Planning Format	Paul Scales, NRCS, John Larson, WACD, Mark Clark, WACC, James Weatherford, Thurston CD	Chapel Theater
Presentation of and Q/A opportunity about the reasons behind a statewide planning effort. A solid review of the 9 steps of planning. All beginning and seasoned planners are encouraged to attend.			
Tuesday			
8:00 am - 9:30 am	NRCS Planing Assistance	Gary Kuhn, State Forester, NRCS	Salmon Gallery
Essential of NRCS forest plans, tools and other helpful hints			
9:30 am - 11:00 am	Helping Family Forest Owners	Gary Kuhn, State Forester, NRCS	Salmon Gallery
Tailor EQIP practices to meet landowner objectives and environmental constraints			
11:00 am - 12:00 pm	WACD Forestry Committee activities and 2009 goals.	Doug Rushton, Western US Rep, NACD Forestry Committee	Salmon Gallery
WACD activities to achieve forestry deliverables.			
1:30 pm - 2:30 pm	NACD Forestry Report & Working with Forestry Partners.	Doug Rushton, Western US Rep, NACD Forestry Committee, Carolyn Kelly, WACD Rep to NACD	Salmon Gallery
2:30 pm - 4:00 pm	CWPP Planning: Lessons from the "Valley View Fire."	Jim Armstong, Communications Manager, Spokane CD	Salmon Gallery
Video and "moving communities to action".			
Wednesday			
8:30 am - 10:00 am	Forestry & Community Planning in the WUI	Carolyn Kelly & Jenny Hinderman, Skagit CD & Garth Davis, Spokane County CD	Salmon Gallery
From the community forestry planning process to the specifics of implementation.			

Info. & Edu.

Susie Vanderburg

Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	The Conservation District Role in Emergency Preparedness	Bill Eller, WSCC	Quail
The presentation will be about the role of Conservation Districts in assisting landowners in planning for natural disasters and terrorist events. It will focus on the who, where, what, when, why and how of preparation, response, and mitigation of these events for conservation districts and their staff members.			
Tuesday			
8:00 am - 9:30 am	Preparing for Your Small Farm Educational Event	Alayne Blickle, Horses for Clean Water	Quail
Horses for Clean Water is an award winning Pacific Northwest educational program for horse & livestock owners. Creator/director Alayne Blickle will explain how to create a dynamic education program that inspires landowners to become peer educators. Get ideas on how to set up and run a small farm education program, and how to create marketing strategies that target small farm audiences. Joint session with Livestock Track			
9:30 am - 11:00 am	Backyard Conservation and Naturescaping	Kristi Carpenter, Skagit CD and Joe Holtrop, Clallam CD	Quail
Joe Holtrop will summarize CCD's Natural Landscaping program which emphasizes site analysis, designing with nature, and utilizing native plants. Kristi Carpenter will give an overview of SCD's Backyard Conservation Stewardship Short Course and the volunteer efforts that have evolved from this program.			
11:00 am - 12:00 pm	Modernizing Our Outreach Methods with Social Networking Tools	Tom Salzer, WSCC	Quail
Find out what social networking is all about. Are there ways that CDs can use You Tube, Twitter, Facebook, and other web-based social networks for outreach? Join us and find out!			
1:30 pm - 2:30 pm	Understanding the Umbrella of Community Engagement	Kandi Bauman, Thurston CD	Quail
How can your district provide meaningful volunteer and service opportunities? Find out the key differences between community service, service learning, and civic engagement and how to build volunteer opportunities accordingly. Wear comfortable shoes and be prepared to move!			
2:30 pm - 4:00 pm	Getting LID Off the Ground in your District – Outreach and Education Panel	Kristi Carpenter, Skagit CD, Gary Dougherty, Clallam CD, Stacy Smith, Whidbey Island CD, Karin Strelloff, Mason CD	Quail
Several Puget Sound Districts have gotten their feet wet and are spreading the word about the benefits of LID. In this session you will hear from several panelists on their CD's LID program; learn what works, what doesn't and what they're trying next! Join us for an interactive discussion. Joint session with water quality track			
4:00 pm - 5:00 pm	Cultural Resources	Gretchen Kaehler, Dept. of Archaeology and Historic Preservation	Quail
What are cultural resources, and what implications do they have for your programs? Come and learn the opportunities and challenges related to this topic, including contact information useful to your district.			
Wednesday			
8:00 am - 10:00 am	Telling the Conservation Story: How to take Excellent Photos	Ron Nichols, NRCS	Quail
Nothing tells a better story than thoughtful words and compelling pictures. You'll learn important lighting, compositional and creative techniques that will transform your "snap shots" into powerful images. Bring your camera and prepare to see the world in a whole new light. Bring your Camera!			

Irrigated Ag.

Mark Crowley, Kay Mead

Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	State-Wide Planning Format	Paul Scales, NRCS, John Larson, WACD, Mark Clark, WACC, James Weatherford, Thurston CD	Chapel Theater
Presentation of and Q/A opportunity about the reasons behind a statewide planning effort. A solid review of the 9 steps of planning. All beginning and seasoned planners are encouraged to attend.			
Tuesday			
8:00 am - 9:30 am	Do I have a Water Right?	Lisa Pelly, Wa Rivers Conservancy	Dipper
Lisa will discuss many different aspects of water rights; do you have a water right, how to protect your water right, what is a water trust			
9:30 am - 11:00 am	How can CD staff help irrigators use their water effeciently?	Jack Myrick, WSCC	Dipper
What is Irrigation Water Management and how can it help improve crop production and efficient use of water.			
11:00 am - 12:00 pm	Water Meter! Moi?! Are there fish in your fields?	Greg Kinsinger, Walla Walla County CD	Dipper
Greg will discuss methods of properly screening and metering irrigation diversions and developing programs to assist irrigating landowners come into compliance with federal and state regulations.			
1:30 pm - 2:30 pm	Reclaimed water for truck farms!	Dr. Sally Brown, U of Washington	Dipper
Dr. Brown is an award winning Research Associate Professor at UWA.			
2:30 pm - 4:00 pm	Are you using the best pump for you needs?	Jack Myrick, WSCC	Dipper
Jack will provide information on how to decide what pump design is best for your needs.			
4:00 pm - 5:00 pm	Crops, Irrigation & Compost	Mark Crowley, Kittitas CD, Lyle Stoltman, Grant CD	Outdoors
Great info on crops, irrigation, compost and their relation to planning. Located in the herb garden!			

Wednesday

9:00 am - 10:00 am	Panel Discussion	Moderator, TBD	Dipper
The plan's complete, now what? How to talk to the landowner, getting the plan implemented, building confidence and credibility, and what landowners want from planners			

IT

Andrew Phay

Time	Title	Presenter	Place
Tuesday			
9:30 am - 11:00 am	GIS Geodatabases	Andrew Phay, Whatcom CD	Tadpole
What are Geodatabases and how are they used.			
1:30 pm - 2:30 pm	Google Earth/Maps	Andrew Phay, Whatcom CD	Chapel Theater
How your district can use Google Earth and Google Maps for the dissemination of data to your customers.			
4:00 pm - 5:00 pm	GPS	Andrew Phay, Whatcom CD	Tadpole
What to do when you get back to the office with your GPS points. Importing, exporting, and geotagging photos for putting on maps.			

Livestock

Helen Jones

Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	State-Wide Planning Format	Paul Scales, NRCS, John Larson, WACD, Mark Clark, WACC, James Weatherford, Thurston CD	Chapel Theater
<p>Presentation of and Q/A opportunity about the reasons behind a statewide planning effort. A solid review of the 9 steps of planning. All beginning and seasoned planners are encouraged to attend.</p>			
Tuesday			
8:00 am - 9:30 am	Preparing for Your Small Farm Educational Event	Alayne Blickle, Horses for Clean Water	Quail
<p>Horses for Clean Water is an award winning Pacific Northwest educational program for horse & livestock owners. Creator/director Alayne Blickle will explain how to create a dynamic education program that inspires landowners to become peer educators. Get ideas on how to set up and run a small farm education program, and how to create marketing strategies that target small farm audiences.</p>			
9:30 am - 11:00 am	Growing New Pastures - Seeding & Reseeding	Marty Chaney, NRCS	Nuthatch
<p>An in-depth study of how to convert forest & other sites to healthy pasture, this course will also cover reseeding - in what situations is it beneficial to do so, how to ensure new plants will thrive, & other management issues.</p>			
11:00 am - 12:00 pm	Beyond Fencing 101	Warwick Bryant, Kiwi Fencing	Nuthatch
<p>Grounding, post treatment quality, hardware, construction details, costs, and suitable fencing styles & wire spacing for specific types of livestock.</p>			
1:30 pm - 2:30 pm	BMP Siting	Rich Geiger, Mason Conservation District	Nuthatch
<p>Learn how to utilize visual assessment and basic engineering measurements to quickly survey properties in order to best site BMPs, meet landowner needs and protect natural resources.</p>			
2:30 pm - 4:00 pm	Paddock Paradise: Healthier, Happier Horses	Jaime Jackson, AANHCP, Dr. Leslie Emery, PhD	Nuthatch
<p>Based upon the wild horse model, Paddock Paradise has fast become recognized as a means to provide safe & humane living conditions which use the horse's natural instincts to stimulate and facilitate movement & other behaviors that are essential to a biodynamically sound horse. Paddock Paradise encourages movement through the creation of a series of pathways or 'tracks', with various stimuli that are incorporated within or alongside the track in order to activate curiosity and/or movement. This session describes how the Paddock Paradise idea was conceived, its underlying philosophy and principles, and general design strategies.</p>			
4:00 pm - 5:00 pm	Paddock Paradise: Reducing Adverse Equine Impact on the Environment	Jaime Jackson, AANHCP, Dr. Lesley Emery PhD, Holly Moffatt	Nuthatch
<p>A local horsewoman shares her design and use of Paddock Paradise, including dealing with challenges of climate & footing, followed by a panel discussion on combining Paddock Paradise with BMPs. Course will wrap up with a Q/A session.</p>			
Wednesday			
8:00 am - 9:00 am	Going Organic - New EQIP Funding	Katherine Withey, WSDA, Dave Brown, NRCS	Nuthatch
<p>Explanation of the new funding available under EQIP to help farms convert to organic.</p>			
9:00 am - 10:00 am	Small Scale Poultry Management & Processing	Brian Stahl, Kitsap Conservation District	Nuthatch
<p>Raising & processing chickens on small acreage or in urban areas. Topics include chicken tractors, predator control, processing, pluckers, offal management & WSDA permitting.</p>			

Water Quality

Stacy Smith

Time	Title	Presenter	Place
Monday			
3:30 pm - 5:00 pm	Funding Successes: How to Get Your Share of Water Quality Funds!	Rex Porter, Porter Group LLC	Flicker
<p>Learn the basics of a systematic approach to assessing funding needs (cost, schedule, performance). See examples from a proven process for accessing needed funding sources and how you can tap into a network of Washington State and federal funding resources. Focus on how to create a record of success gaining external funding from key funders like WA Dept of Ecology and Health, other WA state, and federal funding sources.</p>			
Tuesday			
8:00 am - 9:30 am	Moving Forward to Improve Water Quality	Rex Porter, Porter Group LLC & Karen Bishop, Whidbey Island CD	Flicker
<p>"Reclaiming Surface and Waste Waters from Penn Cove: Attempting Nearshore and Agricultural Benefits. A look at the Town of Coupeville's reclaimed water feasibility study and the Whidbey Island Conservation District's role in the project."</p>			
9:30 am - 11:00 am	Classification of Commercial Shellfish Growing Areas	Greg Combs, WA State Department of Health	Flicker
<p>Greg will speak to the different classifications (approved, conditionally approved, restricted, or prohibited) and restoration of degraded growing areas.</p>			
11:00 am - 12:00 pm	NPDES Phase II Requirements: How CDs can work with towns and cities on Education and Outreach	Kristi Carpenter, Skagit CD	Flicker
<p>Learn about NPDES (National Pollution Discharge Elimination System), Phase II Communities and how CDs can help with implementation.</p>			
1:30 pm - 2:30 pm	QAPPs - what are they and who needs one??	Chad Brown, WA Dept. Ecology	Flicker
<p>Chad will cover the basics: what is a QAPP (Quality Assurance Project Plan), when and why they are required and get into questions Conservation Districts run into regarding QAPPs and water quality data collection.</p>			
2:30 pm - 4:00 pm	Getting LID Off the Ground in your District – Outreach and Education Panel	Kristi Carpenter, Skagit CD, Gary Dougherty, Clallam CD, Stacy Smith, Whidbey Island CD, Karin Strelieff, Mason CD	Quail
<p>Several Puget Sound Districts have gotten their feet wet and are spreading the word about the benefits of LID. In this session you will hear from several panelists on their CD's LID program; learn what works, what doesn't and what they're trying next! Join us for an interactive discussion.</p>			
4:00 pm - 5:00 pm	The Ins and Outs of LID Demonstration Projects	Rich Geiger, Mason CD, Gary Dougherty, Clallam CD, Stacy Smith, Whidbey Island CD	Flicker
<p>"As a follow-up to the LID Education and Outreach session, come and learn the most effective tools for coordinating and constructing an LID demonstration project. Regulatory hurdles, design and permitting challenges, etc...learn from our experience to succeed in yours! Conservation Districts are the leaders in many areas of Washington State in promoting and providing education and technical assistance on this technology."</p>			
Wednesday			
8:00 am - 9:00 am	Monitoring Salmon's Hidden Habitat	Glenn Gately, Jefferson CD	Flicker
<p>An overview of intragravel dissolved oxygen monitoring: the importance of adequate DO in the redd, the mechanics of monitoring, analyzing and interpreting the data in a case study of a newly excavated channel.</p>			
9:00 am - 10:00 am	IGDO Monitoring Demonstration	Glenn Gately, Jefferson CD	Flicker
<p>Stream-site demonstration of intragravel dissolved oxygen (IGDO) monitoring: preparing a simulated redd for monitoring, collecting a water sample, and titrating the sample.</p>
